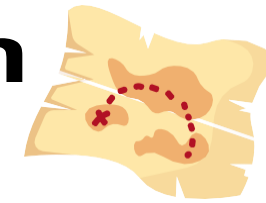
Debug Hackathon

Rule Book



1. Event Overview

The Hackathon is a 7-hour competitive innovation event designed to encourage problem-solving, creativity, and teamwork. Participants will develop solutions aligned with real-world challenges across predefined domains. The event consists of two competitive rounds, culminating in a final evaluation by a judging panel.

2. Hackathon Domains

Participants must choose one of the following domains for their project:

- **FinTech**
- **Environment**
- **Productivity**

⚠ Projects must clearly align with the selected domain. Cross-domain ideas are allowed but must strongly justify relevance.

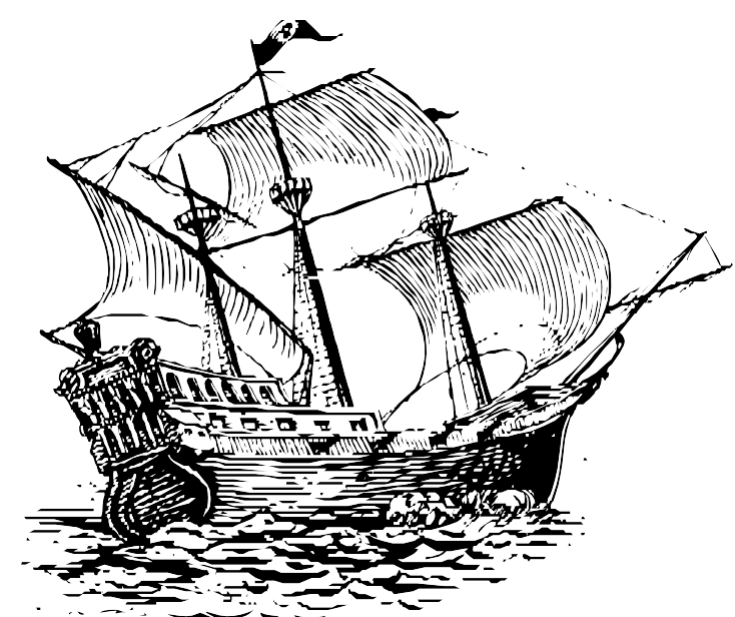
3. Team Formation

- Participation is team-based.
- Each team must consist of [2–4] members. Individual participation is not allowed.
- Teams must be formed before the hackathon begins.
- No changes in team members are permitted once the event starts.

Participating in hackathon is for any college student, for any year and for every branch

4. Timeline

- 9:00 Hackathon starts
- 9:15 Problem statements will be released
- 9:30 coding starts
- 1:00 Time for refreshment
- 4:30 Pitching round
- 5:00 Round 1 results
- 6:00 Round 2 results
- **No participants will be allowed to enter the hackathon after 9:30**



<u>Problem Statements will be released as soon as the hackathon starts</u>

4. Hackathon Structure

- Round 1: Development Round
- All registered teams will compete simultaneously.
- Teams are required to:
- Ideate, design, and develop a working solution/prototype.
- **Prepare a brief explanation of the problem statement, solution approach, and implementation.**

- Round 2: Final Round

Teams will:

- **Enhance and refine their solution.**
- **Fix bugs, improve UI/UX, and strengthen functionality.**
- **Prepare for a final presentation and demo.**

5. Final Presentation

- Each team will be given a fixed time slot for presentation and demonstration.
- Presentation must include:
  - Problem statement
  - Proposed solution
  - Key features and technology stack
  - Live demo or walkthrough
  - Future scope (if applicable)

6. Use of Resources

- Internet access and open-source libraries/tools are allowed.
- **Use of AI builders are NOT allowed like lovable, Replit, Bolt, etc.**
- Complete ready-made solutions prior to the hackathon are not permitted.

Rules & Regulations

- **Teams must consist of 2–4 members only.**
- **Inter-college teams are allowed.**
- **All participants must be currently enrolled students.**
- **Participants must carry a valid college ID and present it for verification when required.**
- **Projects must be built entirely during the hackathon duration.**
- **Use of pre-existing libraries, APIs, SDKs, and frameworks is allowed; however, pre-built or previously developed projects are strictly prohibited.**
- **All materials submitted, including code, designs, images, and videos, must comply with intellectual property laws and be original or properly credited.**
- **Plagiarism or unethical practices will result in immediate disqualification.**
- **A registration fee of ₹300 per team is applicable for teams**
- **Registration fees are non-refundable under any circumstances.**

PRIZE POOL

All the participants will be provided with the participation certificate.
